

#### Description

The new Ente Sound Sculpture brings sound, light, and form together to create an entertainment experience unlike any other. Powered by the new Sonos® Amp, black and white Baltic Birch panels interspersed between audio channels, creating a one-of-a-kind piece that perfectly integrates into any Sonos system.

#### Key Features

- Custom, handcrafted designs available to match any space or style
- Features Leon's Ultima speakers and SONOS AMP®
- Includes programmable LED lighting kit
- Mounts flush to the wall using an integrated French cleat mount; call for other mounting options
